Gloria:

I got a call from Jonathan Carroll about 6:00 pm on 2/7/13. He told me that Steve Wilson his man running the project had been sick for the past 2 weeks. He also told me that he was trying to get funding from a bank and had a term sheet but then Superior had a recent spill (I was aware) that resulted in questions that he has been trying to answer. He indicated that he was having difficult getting information from his tenant, Jeff Kirby/Superior Crude. I told him that I expected that the water in the tank begin to be irrigated on April 1, 2013 and the Site completely cleaned up by the 9/30/13. I told him that I may be able to give them some slack on the tank inspections but it would be no longer than the end of the calendar year.

I forgot to ask him about coming in for a meeting but hopefully we will get a response.

Thanks

Gary Moore
